

## Round-Bottom Tubes

### Description

14 mL, Round Bottom, with Dual-position Cap, Sterile or Non-sterile

### Purpose

Colorless and transparent are perfect for biological reaction experiments

### Materials

Tube: PP (Polypropylene)/PS (Polystyrene)

Cap: LDPE (Low-density Polyethylene) Color: Natural

### Dimensions (Unit: mm)

### Features

- Available with high-quality polypropylene or polystyrene
- Molded graduations stand out distinctly on these optically clear tubes
- Thicker walls will not crush
- Leak-proof
- DNase/RNase free
- Non-pyrogenic
- Sterilized by irradiation SAL10<sup>6</sup> (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 room environment
- Manufactured under ISO13485 and ISO9001 quality management system

## Round-Bottom Tubes

Cat. No.	Capacity	Tube Material	Bottom Style	Cap Style	Sterilization	Packaging Configuration
TUB000140	14 mL	PP	Round Bottom	Dual-position Cap	No	50/bag, 500/case
TUB011140	14 mL	PP	Round Bottom	Dual-position Cap	Yes	25/bag, 500/case
TUB100140	14 mL	PS	Round Bottom	Dual-position Cap	No	50/bag, 500/case
TUB111140	14 mL	PS	Round Bottom	Dual-position Cap	Yes	25/bag, 500/case
